GROUND-BREAKING—A new White Front Store gets its start in La Mesa as ground is officially broken for one of two San Diego area stores, total investment for which will come to \$5½ million. Those who literally have a hand in the ceremony are (l to r) Harry Epstein, vice president of Interstate Department Stores, Inc.,

and general manager of White Front Stores, Inc.; La Mesa Mayor Ray W. Fellows; Miss Linda Wilson, "Miss La Mesa", and Frank A. Gibson, chairman of the County Board of Supervisors. The store is expected to be in operation by the end of this year.

Ground-Breaking Ceremony Launches New White Front

Ground-breaking ceremonies Aug. 5 in San Diego and La Mesa marked the entry of White Front Stores, Inc., into the San Diego County region. The chain has been called the West's largest and most rapidly growing chain of discount department stores.

On hand for the La Mesa event were Mayor of La Mesa Ray W. Fellows; Frank A. Gibson, chairman of the San Diego County Board of Supervisors; Harry Epstein, vice president of Interstate Department Stores, Inc., and general manager of White Front Stores, Inc.; and other officials.

The La Mesa store will be at Grossmont Boulevard and Jackson Drive (8900 Grossmont), and the San Diego store will be at Rosecrans Street and Pacific Coast Highway 101 (3851 Rosecrans). Both stores are expected to be open before the end of the year.

The two San Diego area stores will bring the total stores in the chain to 21. The chain opened its first store in 1929 in Los Angeles. Stores are now under construction in Sacramento and South San Francisco.

\$5½-Million Investment—The two new stores here will represent a total investment of \$5½ million and will conform to the White Front one-stop shopping center philosophy. Each store will have an overall square footage of 150,000 with 120,000 square feet of selling space.

Among the departments that will be housed within each spacious interior are sporting goods, jewelry, pharmacy, gardening equipment, toys, cosmetics, major and small appliances, television, hi-fi, stereo and component parts, and a complete discount supermarket.

15c Tax Hike Seen For County

SAN DIEGO (CNA) — The County tax rate for fiscal year 1965-66 will be between \$2.27 and \$2.29 per \$100 of assessed valuation, Chief Administrative Officer T. M. Heggland said Monday. The rate will be up 14 to 16 cents from the previous year, which was \$2.131.

Heggland said the surplus figure, carried-over and authorized by unspent funds, has been obtained by the auditor. It is \$3,531,000. Last year's surplus figure of over five million dollars enabled the county to give a slight tax rate cut.

The only unknown factor remaining, Heggland said, is the amount of revenue that the county will receive from its various state, federal and local sources.

Heggland said the increase is the largest since 1950, when there was a 36 cent jump in the tax rate. He had earlier predicted an increase of between 10 and 20 cents.

The final budget calls for expenditures of \$121,870,652. Last year the final budget was \$109,733,566.

The continued high rate of unemployment contributed to the increased budget forcing up public assistance costs. One of the reasons that the surplus was lower than last year's was that several substantial transfers were made into welfare funds from other departments.

The welfare costs will be up from \$47 million to \$54 million. The net cost to the county is up to \$10.4 million from \$9.1 million. The rest of the money comes from state and federal contributions to the county.

'Councilman' Sam To Speak Here Fri.

Sam Pernicano, Lemon Grove's contribution to the San Diego political scene, will be speaker Friday at the Lemon Grove Men's Club. It will be his first speech as an office seeker.

Pernicano, who operates a pizzeria in Lemon Grove, is running for the San Diego City Council in the 7th Councilmanic district against Allen Hitch, the incumbent.

Pernicano is a past officer of the Lemon Grove Kiwanis Club and past treasurer of the Lemon Grove Chamber of Commerce.

Men's Club President Douglas Nairne said Pernicano "will make a non-political speech on why he is running for office."

The club meets Friday at noon at Michael's for a no-host luncheon. All men are invited.

Building for 4-H Clubs

Clothing and booth exhibits of California 4-H Clubs will be housed in a separate building for the first time this year at the California State Fair, Sept. 1-12. The building is located directly behind the Gem and Mineral Building in the livestock area.

Deputies Arrest L. G. Man On Marijuana Count

On a warrant charging possession of marijuana signed by Judge Alfred Lord of El Cajon Municipal Court, sheriff's officers arrested Michael John Krawchak, 22, of 7561 Madison, Lemon Grove, Friday night at Lido's restaurant, 7252 Broadway, Lemon Grove.

Deputies made the arrest while Krawchak was at the restaurant with two minor girls. They charged in their report that as they approached Krawchak he put the remains of a marijuana cigarette into his mouth and was attempting to chew it up and swallow it as they were escorting him from the establishment with one handcuff on.

The officers reported that they were able to force him to spit out the stub, which they placed in evidence.

Three Arrested At Jack In Box

Three youths—one from Lemon Grove and two from La Mesa—were arrested Tuesday night at Jack in the Box Drive-In, Broadway at Kempf, Lemon Grove, and charged with failure to disperse as ordered by deputy sheriffs.

They are Walter Mark Mason, 20, of 8280 Broadway, Lemon Grove; Donald Sherman Wilson, 20, of 7632 Sturgess, La Mesa; and Raymond Frederick Doud, 22, of 7335 Sono Pl., La Mesa.

Officers charged in their report that the three, in addition to failing to disperse as ordered, used loud and obscene language in talking with the officers and generally created a disturbance.

Jumped At Ace Theater, Youth Gets 31 Stitches

Kenneth Newton Moran, 17, of 4268 Mt. Herbert, S. D., was "jumped" by three teenagers, while attending a movie Saturday night at Ace Drive In Theatre, 8015 Broadway, Lemon Grove. Officers reported that a cut over his eye required 31 stitches.

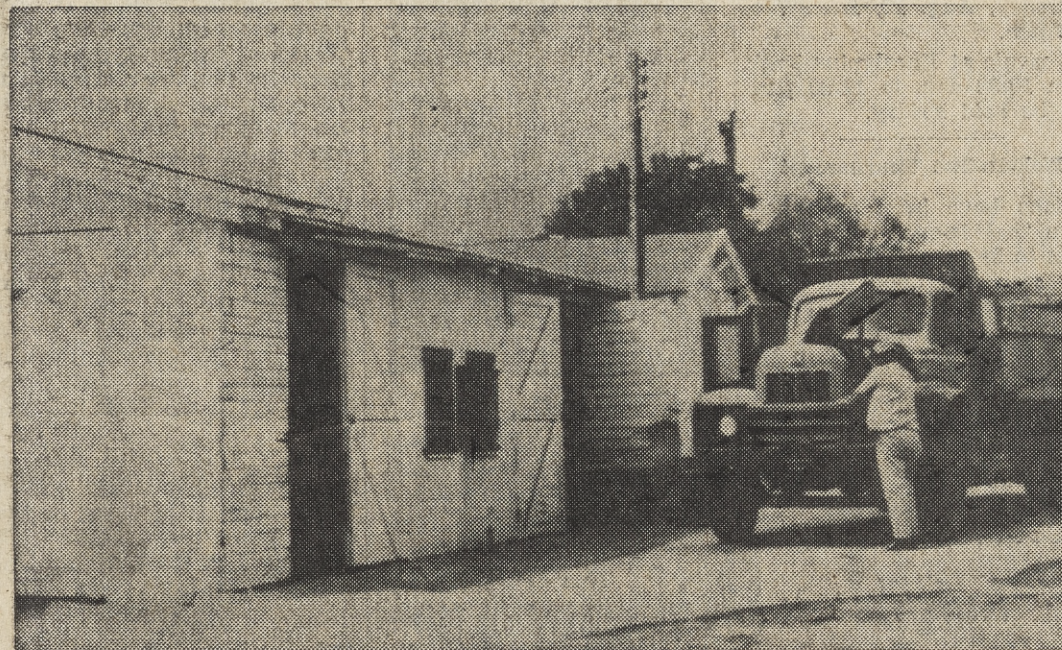

The Moran youth told officers that he was with his brother and two girl friends and while at the snack bar the three assailants "made wise remarks, and I made some back." Later near the wash room the three jumped him, he said.

STABLE AND SMITHY days are ending for local station of the County Road Department. Scene above greeting motorists from Murray Hill Road, will be improved as site of local road activity is transferred to a new facility at Jamacha Junction in September.

FRAME BUILDINGS from another era will remain at the 7410 Waite Dr. site for at least another year. Plans to replace these outworn buildings will have to await a budgeting process. Meanwhile, road maintenance for this area will stem from there.

Local Road Facility Moving In September

The Jamacha Junction headquarters of the County Road Department's Division I facility will replace the "stable and smithy" type buildings now located at 7410 Waite Dr., Lemon Grove, it was announced this week by Henry Boney, County Supervisor of District 2.

The completion of the Jamacha Junction station is expected in September. This 60 by 200 foot modern steel structure will contain an equipment repair shop, supply room, administrative offices, and several specialized storage and repair areas. Construction of the building is by the Dunphy Construction Company at a cost of \$160,000.

Last of Three—The new headquarters, which is the last of the three divisional headquarters to be completed, will remove from the scene

the last vestige of the era of mule-power.

Boney said that Road Division I maintains approximately 600 miles of roads and streets, most of which are in his district (2nd) The division superintendent, Edward A. Singer, has 80 men in his division—40 working out of the division headquarters, and another 40 divided among five road stations (Jamacha, Bonita, Alpine, Campo, and Lemon Grove). About 40 pieces of heavy or specialized road equipment are normally assigned to this division.

Central Location—The new headquarters will be more central in relation to the division as a whole. The retention of the Lemon Grove Road Station at its present site for road maintenance purposes under Road Foreman E. Smith will permit continued adequate service to the area.

David Speer, county road superintendent, said the Department plans to gradually remove the old wooden buildings and replace them with modern steel structures suitable for maintenance purposes.

Creative Farming Pushed By BoA

An unprecedented public service program to encourage creative farming by young California agriculturists was announced today by Bank of America.

Called "Plan to Prosper," the program will help young farmers turn their ideas into reality through advisory councils, manned by top agricultural and financial experts, at more than six dozen agricultural centers throughout the state. These councils will offer their services free of charge to all farmers between 21 and 35 years old.

Bank of America Executive Vice President Robert L. Gordon said the program will be in operation in mid-August.

"The Plan to Prosper advisory councils," Gordon said, "will include successful farmers known for their progress in agriculture, tax accountants or tax lawyers, bank appraisal officers, and bank senior credit officers."

"They will offer valuable, practical advice which would be difficult to obtain from any other single source, and will do so in the strictest confidence."

Anyone consulting a "Plan to Prosper" council will be under (Continued on Page 4)

NEW TREATMENT PLANT—This view of the filter gallery of the new R.M. Levy water treatment plant of Helix Irrigation District shows several control panels for backwashing filters. Backwashing can be controlled either manually or automatically.

Helix District Dedicating \$3-Million Treatment Plant

Prominent state, county, and local government officials and representatives of county water agencies will be on hand Monday for the public dedication of the Helix Irrigation District's recently completed \$3-million water treatment plant.

The new R. M. Levy water treatment plant will be dedicated at 10 a.m. It is on the new Lake Jennings Park Road next to Chet Harritt Dam and Lake Jennings, about a mile east of Lakeside.

Speakers at the ceremony will include Harry Griffen, president of the district's board; H. B. Foster Jr., chief of the Bureau of Sanitary Engineering, California Department of Public Health; U. S. Congressman Lionel Van Deelen; and William H. Jennings, general counsel of the irrigation district.

The program includes guided tours, demonstrations of selected operations of the plant, and light refreshments.

The treatment plant became necessary because of the great growth of the district in the last decade, and the conversion from agricultural service to domestic service. Customers increased from 66,000 in 1955 to 150,000 in 1964.

The facility was named in honor of R. M. (Rube) Levy, who served the people of the Helix Irrigation District for more than 30 years. In 1928 he was elected a director from the La Mesa area, and in 1939 he became president of the board, in which position he remained until his death in 1959.

The project was financed partially by a grant of \$1,140,500 from the Federal Government under the Accelerated Public Works program. Another \$2,000,000 was obtained from a bank loan to be paid off by 1968.

Areas served by the district are Lemon Grove, Spring Valley, La Mesa, Fletcher Hills and El Cajon.

Lewd Movie Arrests Are Damaging To Public Respect & Police Morale

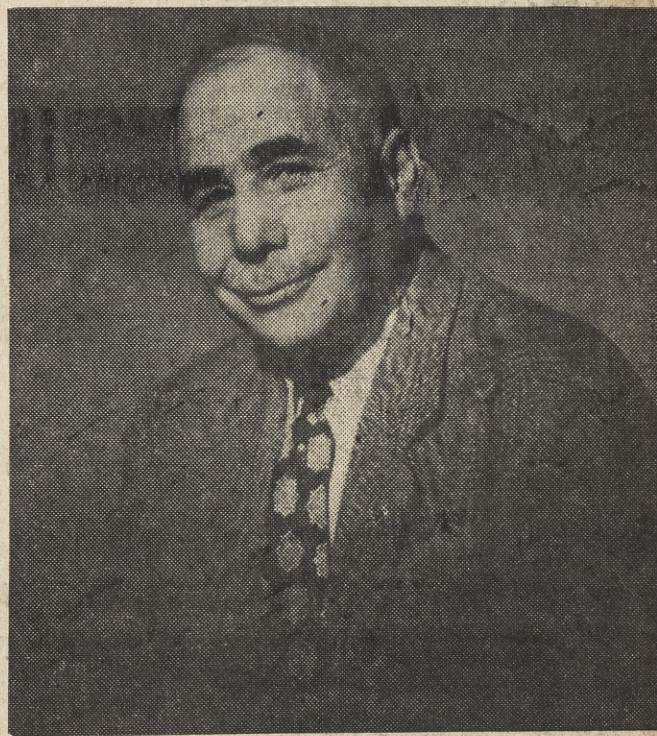

The arrest of two police officers on a charge of making obscene movies was shocking to people who knew the men—Sheriff's Sergeant Willard Rigley, a 23 year veteran, and Sheriff's Detective Claude Smith, with a fine 10-year record, had a wide acquaintanceship in Lemon Grove and Spring Valley. Sergeant Rigley once lived in Lemon Grove and served the Homeland Judicial Court when it was in operation in Lemon Grove. He was viewed by many as the "one-man Lemon Grove Sheriff's Department." This was at a time when matters were less complicated in this area than they are now, and those who lived here at that time agree that he did a most creditable job. Later he was transferred downtown and he moved to Chula Vista.

Following Rigley was a young man with a sterling reputation. He was Detective Claude Smith, a devoted family man and a dedicated officer. No one questioned his integrity—in the service or out, so far as we can ascertain. He worked harder and later on most local cases than the rule book requires. He was noted for his tenacity in working a case, and fellow officers often said that "Smith doesn't know what a clock is." He was reviled by sex crimes in particular.

An example of Smith's determination was a case a while back involving nude movies of a teen-age girl. All clues led up blind alleys. But Smith persisted. Smith observed that the girl wore a ring in one of the scenes. He had enlargements made of her hands. He was ultimately able to decipher the symbols of a high school class ring.

Smith then went to the high school and pored over school annuals. He finally found a picture which matched the girl in the movies, tracked her down, and through her admissions, he rounded up the other movie-making participants and got a conviction.

Smith now finds himself being charged in that same style (Continued on Page 4)

DR. FRANK B. GIGLIOTTI

Dr. Gigliotti Named Kiwanis Man-of-the-Year

The Lemon Grove Kiwanis club, in collaboration with the Cal-Nev-Ha Kiwanis District, will sponsor the "Kiwanis Golden Anniversary Man of the Year" program in Balboa Park Oct. 2. It will be a banquet at the Balboa Park Club.

To be honored is long-time Lemon Grove resident Dr. Frank B. Gigliotti.

Gigliotti, a minister, has been active in state, national, and world affairs. He was an official with the Office of Strategic Services during the war, and helped write the freedoms into the Italian Constitution following the war. He has been active in state welfare and youth programs. Recently, he was in charge of a program by which confiscated Masonic

properties were reclaimed in Italy.

Chairmen Named—Paul Reynolds, L. G. Kiwanis president, named Dr. Robert Swenson and Ed Purizer as chairmen of the October banquet.

R. E. (Bud) James, San Diego County Clerk, will be master of ceremonies of the program—the theme of which is "One Man's Dream for America."

In attendance at the banquet will be Gov. Pat Brown and other dignitaries, some of whom will be representatives of other nations. Several national figures are expected.

Anticipated attendance is 1,000. Tickets to the affair will be distributed through Kiwanis Club members throughout the district, Reynolds said.

"Soul" is the subject of the Lesson-Sermon to be read in all Christian Science churches this Sunday.

The church is very important in the life of the family. Regular church attendance will do more to bind the family together than any other activity. Do not send one member of the family to church alone. Let all members of the family worship together. Spring Valley Pilot, 17, Wins National Scholarship

A 17-year-old Spring Valley licensed pilot, Robert J. Hamilton, has been named to receive a 1965 Civil Air Patrol scholarship grant of \$1,000. Announcement of the award was made by Col. Joe L. Mason, USAF, CAP national commander.

The 1965 Monte Vista graduate was due to leave Europe this week on Wednesday to return home after an exchange CAP training program in Israel, according to his parents, Mr. and Mrs. Robert C. Hamilton of Sweetwater Lodge, Jamacha Blvd.

Young Hamilton, now a Cadet Major in CAP, also won an Amelia Earhart award. He has been flying since the age of 15, made his first solo flight at 16, and won his license shortly afterward. He also is a licensed amateur radio operator.

In announcing the scholarship the CAP said Cadet Hamilton was selected to receive the award through a nation-wide competition provided by the Civil Air Patrol scholarship program. "The selection was

based upon his outstanding contributions to aerospace education," the announcement said.

Mrs. Hamilton said this week her son plans to study physics or engineering, starting this fall at the University of California at Santa Barbara.

Social Security Question Box

By Guy Deeks

If you have any questions about your social security, send them to the Editor, P. O. Box 127, Lemon Grove, Calif. Your question will be answered by personal letter and your name will not appear in this column.

QUESTION:
I just bought a trucking business. When do I have to file my highway use tax return?

ANSWER:
A return is due on or before the last day of the month which follows the month in which a vehicle is first used on the public highways. The regular tax period for vehicles begins July 1. It is most likely that the person you acquired the business from took care of the tax for the current year although this is something you should be sure of. If he didn't pay it you could be liable for the tax during the part of the current year he owned the trucks.

The requirements of this tax are explained in Internal Revenue Service Publication No. 349, "Federal Use Tax on Trucks, Truck Tractors, and Buses." It is available free at any of our local offices.

QUESTION:
A widow who is 75 years old and is receiving social security benefits is working now for wages. Is she required to report these wages for social security taxes?

ANSWER:
Social Security taxes must be paid on any earnings that are covered under social security. This is true no matter what the employee's age or social security benefit status is. The employer is responsible for submitting the report of wages and the tax.

QUESTION:
How much are the social security taxes on wages?

ANSWER:
During 1965, 3% percent of wages up to \$4,800 are to be withheld from the employee's pay. An equal amount is contributed by the employer for a total of 7 1/2 percent. This tax rate will be increased next year.

QUESTION:
How and where are social security taxes paid?

ANSWER:
The wages are reported and the tax amount is shown on forms provided for that purpose by Internal Revenue Service. The completed forms and tax payments should be sent to the District Director of Internal Revenue. Except in the case of agricultural workers the reports and payments should be made in April, July, October, and January for wages paid during the calendar quarters preceding each of those months.

FAIR 112 YEARS OLD

The California State Fair and Exposition is 112 exciting years old. The first fair drew less than 5,000 visitors; premiums ran below \$5,000. The 1964 State Fair attracted 964,766 persons, and awarded premiums and race purses of approximately \$500,000. This year the Fair will be Sept. 1-12.

Billy Graham Coming Back October 1st

Billy Graham will be back in San Diego October 1, 2, and 3 of October via picture says Pastor I. Larry Clark of the First Baptist Church of National City and Chairman of the Premiere Committee of "The Restless Ones."

The Convention Hall of the Community Concourse building has been rented for the three-day showing. The schedule will be one showing on the evening of October 1, four showings on October 2, and two showings on October 3.

The Billy Graham picture, "The Restless Ones" is a full-length feature film that deals with the teen-age crisis of our day. The background setting is provided by the Graham Crusade in Los Angeles in 1963. "The Restless Ones" is a hard-hitting bold approach to our social problems—that dares to be different and will stir the heart and mind. The picture brings into focus the contemporary plight of both the teen-ager and parents.

Law Is Explained On Smog Devices

Here's a word on smog devices from the Department of Motor Vehicles, whose director, Tom Bright, said last week many people seem to be needlessly confused about what they have to do.

Are you worried about smog devices? Don't be, he advises. Here's why:

If you buy a new car now or in the future there is no problem. The dealer (if he's a California dealer) will arrange everything.

Are you planning to buy or sell a 1954 or older used vehicle? Don't worry. Such vehicles are not required to have smog devices.

What about buying a used car, 1955 or newer from a California dealer? Again, the dealer will take care of any smog device installation, if one is required.

If you plan to buy a used car from an individual, you still have no problem if the car is a 1963, 1964, or 1965 model. These models already have devices on them.

All right. What do you have to worry about?

First, since you live in one of 10 smog control areas you may be required to have a crankcase smog device installed before the vehicle's registration can be transferred to your name in the event that you purchase a 1955-1962 used vehicle from an individual.

your vehicle (many late models were factory equipped) it is Second, once a device is on your responsibility to keep it properly maintained. Devices should be checked and serviced at least once every 12 months.

Cycles To 'Invade' Speedway Friday

The first motorcycle racing program in a month at Cajon Speedway will attract the West's top professional American Motorcycle Association riders Friday.

A special attraction of a Super Stock racing car and a cycle in a match race after the regular program is expected to bring advocates of both to see the contest. Never before tried at the track, this unusual race will help to settle a long controversy on cycle speeds, which two-wheel enthusiasts hold to be the fastest at the speedway.

Super Stock fans expect the four-wheel power wagon to hold its own on the 3/4-mile oval.

The 16-event program will get under way at 8 p.m. Friday, with practice rounds starting at 7. Over 75 bikes will take part in three classes, which feature the big 500 cc racing machines in the open class.

Records of all kinds are sure to fall Saturday night as the second Super Stock Car Open Competition race of the season gets under way at 8 o'clock.

Area Bank Pays 27th Dividend

United States National Bank Directors declared a regular quarterly cash dividend of 25¢ per share payable Aug. 31 to shareholders of record July 2.

The dividend action was taken at the board's regular July meeting in U. S. National's San Diego headquarters. It made this the bank's 27th consecutive quarterly 25¢ cash dividend payment since 1958.

C. Arnold Smith, president and board chairman of this Southern California banking system, said the bank's growth was continuing satisfactorily, and he anticipates even more significant gains during the remainder of 1965.

Last month it was revealed that the Bank of Los Angeles has under consideration a proposal to merge with the United States National Bank. This proposal would be subject to the approval of the Board of Directors and shareholders of both institutions as well as the State Superintendent of Banks and the Controller of Currency.

It has also been announced that — with shareholders approval — Pacific State Bank, Hawthorne, Calif., will be merged into United States National Bank. If both mergers were to be consummated—United States National Bank would have 42 offices throughout Southern California.

New Channels Set Up For WW I Vet Claims

California's Director of Veterans Affairs, Joseph M. Farber, has announced that the State Department of Veterans Affairs will process all claims filed by veterans in the name of the Veterans of World War I, Department of California.

Announcement of the new arrangement was made jointly by Farber and the Commander of the Veterans of World War I in California, Allan C. Myers of Orland.

Word of the agreement has been sent to all County Veterans Service Officers in California, who have been encouraged to cooperate with local service officers of the Veterans of World War I who, in turn, have been requested to submit all veterans claim through the County Veterans Service Officers.

Farber, in making the announcement, pointed out that veterans of World War I are now of an age where their needs and resultant claims under veterans laws are on the increase.

and manner following an investigation just as thorough as his was. Three branches of the law enforcement services had crack teams of investigators on the case and they nailed it down good. It is needless to say that in spite of the splendid work of the investigators in breaking the case, every officer in the sheriff's department has been professionally injured. In addition, many who knew and admired Smith have been hurt emotionally. We suspect that an emotional problem may be the basis for Smith's actions (if he is found guilty) because nothing in his background suggests that such activity is part of his history or character.

Usually dependable sources report that an attorney and a judge may be called in to explain whether or not they had a part in the production of the pornographic films now held in evidence.

Trailer Park Zoning Changes Due

Are mobile home parks about to be integrated with each and every residential zoning district.

The County Planning Commission is wrestling with that consideration right now. The question is whether or not zoning laws shall be relaxed so that mobile park developers can use economic laws to decide where such parks may be situated.

One commissioner is known to favor excluding light agricultural districts from mobile home living.

Another commissioner feels that the application of a holding classification in strictly residential zones has already changed the character and intent of ordinance.

Consideration of a change in ordinance stems from a desire to impose higher standards on parks. A requirement of 100 square feet of recreation area for each trailer space is one of the considerations. Planning Director Dan Cherrier was asked to prepare a change in the ordinance, and did so after consultation with members of mobile home industries. Presumably, a new ordinance will do away with the cumbersome system now in effect. To install a trailer court the owner now ask for rezoning from its present classification to R-4, multiple dwelling. He then asks for a special use permit. In simpler terms he now must apply twice.

Considering that the problem of where and how to locate such parks has existed for years, there is something to be said for the present method. It gives protestors two swings at opposing the installation.

From a planning point of view the method is bad because a zoning change is granted independently of a special use permit. Not only does it create a spot zone of R-4, it also gives the land owner a wide choice of multiple developments that exist under R-4.

The commission's counsel gave a personal opinion that there should be zones where a person can build a house next to a vacant piece of land and be assured that the vacant land will not soon become a trailer park.

He added that zoning sets the density of population to be allowed in a section. Mobile home parks in low density sections would upset that pattern and would create a terrible problem for schools, he opined.

A continuing study is being made, as well it should. No one can deny that mobile home living comprises a large part of Southern California living.

Families in this area will be asked about ownership of television sets during the August Current Population Survey by the Bureau of the Census, according to Leonard C. Isley of the Bureau's Regional Office in Los Angeles.

The Advertising Research Foundation and the Federal Communications Commission have requested the TV information in addition to the regular inquiries on employment and unemployment asked by the Bureau each month to furnish information for the U. S. Department of Labor's Bureau of Labor Statistics.

The TV questions will be aimed at determining (1) If the sample family owns a television set; (2) Number of sets in the household; (3) If the household has color TV; (4) If it has ultra high frequency TV (Channels 14 to 83) and the type of UHF receiver if there is one.

A similar survey done in May 1964, showed that 93 percent of U. S. households had television sets at that time. No questions were asked about color or UHF television in the 1964 survey.

The information will be collected during the work week starting Aug. 15 from scientifically selected sample households in this area as well as other sample areas throughout the U. S.

Census Bureau interviewers who will visit families in this area in August include Mrs. Doris L. Beauregard of National City, Mrs. Evelyn L. Pruess of San Diego, and James A. McKenzie Jr. of San Diego.

Salt Related To Common Cold?

London, England (WMNS)—One by one, lethal and disabling diseases yielded to medical science, but the common cold carries on. A new clue—albeit a slim one tested on only four persons — is reported in the British medical journal, "The Lancet," by four researchers from Bombay, India.

They write: "We suggest that man to some extent owes his common cold to the consumption of common salt. A virus has been incriminated as the causal agent; but it could be just a passenger and not the driver. Two adults and two children with recurrent common cold have obtained complete and sustained relief for the past 6-14 months by taking a salt-free diet.
